

Jeremie Averous is an author, speaker, entrepreneur, trainer, and certified coach. He likes to describe himself as a K.E.E.N, a Knowledge Enhancing Exchanging Networker, a typical member of the new international nomadic leadership community.

Jeremie is passionate about helping people grow and about bringing teams of diverse people together to overcome seemingly impossible feats. He consults in the field of project management for large, complex projects, and spreads further the message of the Fourth Revolution through his blogging and speaking activities.

In his first book, "**The Fourth Revolution**" Jeremie helps us understand what is happening in the world today, and how to thrive through the world's transformation. The book is a proof in itself of the Fourth Revolution: from Malaysia where Jeremie was staying at the time he wrote the book, it was available worldwide within one month of its first print thanks to Print-on-Demand and internet stores such as Amazon. Today, anybody can easily make his or her voice heard over the continents.

Jeremie is a dynamic speaker that loves to entertain and surprise his audience by jostling with contrarian ideas. You will not look at the world in the same way after one of Jeremie's talks.

**Because, willingly or not, we are the generation of the Fourth Revolution,  
we will shape the world.**

**It is our destiny. It is our opportunity and responsibility.  
Let's shape a world we will be proud to leave to our children.  
Let us thrive, and therefore make the world thrive!**
